Waste and Recycling Services for your Business

Working in partnership with

GENERAL WASTE | MIXED RECYCLING | FOOD & GLASS RECYCLING

Dedicated business waste and recycling collection service with exclusive rates for Slough Trading Estate.

General Waste Collections

Our general waste collection service collects all of your non-recyclable waste. Many of our customers combine our general waste collections with a recycling collection option.

Recyclable Collections

By separating your recyclables out of your general waste, you'll be significantly reducing the amount of waste potentially sent to landfill.

Food Recycling Collections

Commonly, food waste is put in a general waste bin and is likely sent to landfill. The alternative, is to separate food waste by putting it in a dedicated food waste bin. We will collect your food waste and will turn it into two very worthy products – agricultural compost and renewable energy.

Glass Collections

We can collect any coloured, bottles or jars. All of the glass we collect is taken to our Material Recycling Facilities where it's then collected by a specialist company for re-processing into new products.

cardboard

food waste

mixed glass
bottles & jars

mixed
paper

plastic bottles

food tins &
drink cans

Pallet Collections

We offer a dedicated, weekly pallet collection for businesses on Slough Trading Estate.

Pallets collected from you will be taken to our Material Recycling Facility and processed into a wood chip/ bio-mass material.

What we do with the waste we collect

Recycling is at the heart of everything we do and we are always working towards achieving a zero to landfill target. We have our own Material Recycling Facilities in Aldershot and Ascot with the latest technology in waste separation and segregating.

We divert residual waste from landfill and consistently achieve recycling rates of 85%.
